

Batch File to open all ProLinks

This is an example of a Batch File (we call ours ps.bat) located in the *Profile* Directory.
Create the file using your favorite text editor:

Sleep 1		
Start/min	prolink	P1
Sleep 1		
Start/min	prolink	P2
Sleep 1		
Start/min	prolink	P3
Sleep 1		
Start/min	prolink	P4

Create a Shortcut and drag it to the desktop.
